

TORIES be True;

FOR THE

DAY

Will be your own still.

Considering what a ticklish time we live in, and how watchful Messengers, Constables, and Others in Authority, are in suppressing any Pamphlet which tends to Sedition, by reflecting on the present Government, what we are going to discourse on, without doubt, must come under their Cognizance, therefore we shall speak as modest as we can, on the Matter which gives a Title to this Paper.

In all Changes or Revolutions of Government, let it be either Monarchical, Aristocratical, or Democratical, tho' the Alteration of the State may be for the best, yet will there be some Malignants, who out of Prejudice, Interest, or Ignorance, will be so intoxicated, as to adhere to those Principles, which would be the Overthrow of the best Constitution in the World, which we now most happily enjoy, by the late most glorious King *WILLIAM* the Third, and Queen *MARY* the Second, rescuing us from Popery, Slavery, and Arbitrary Power; and which Prospect of Happiness was successfully continued to the eight first Years of Queen *ANNE*'s Reign, when a *High-Church* or *Tory*-Ministry coming in thro' the seditious Preaching of *Harry Sacheverel*, this Kingdom of *Great-Brittain* had like to have been made a Sacrifice to *France* and *Rome*, by contriving ways and means to bring a spurious Pretender to ascend the *British* Throne.

But the ever wakeful Eye of Heaven having as great a Regard for this Island, as once for the *Jewish* Nation, whilst they were obedient to their divine Protector, it was graciously pleas'd to deliver us from the inevitable Destruction which lately threaten'd us, by timely blessing us with the invaluable Blessing of King *GEORGE*'s vouchsafing to leave his native Country, where he liv'd in the midst of the greatest Happiness, Peace, and Love of his own Subjects, to confer the like Blessings on us and our Posterity for ever, as appears by the numerous Royal Issue of this August Family, whom God preserve till Time shall be no more.

But now to draw to a Conclusion, and to make good our Title, viz. *Tories be true, for the Day will be your own still*, If you'll see your Errors of being bigoted to a Popish Imposter lurking now like a Vagabond at *Avignon*, and be true to your rightful Sovereign and true Leige Lord King *GEORGE*, the Day will be your own still, for instead of shortening your Lives by Tumults, Riots, and Rebellion in Vindication of that cowardly *Cavelier de St. George* exert your Loyalty in sincerely taking the Oaths of Allegiance and Supremacy to King *George*, and you may then live to a good old Age.
